

NORMONT HINGE LAUNCHES UPDATED CATALOGUE

New Catalogue Expands Hinge Selection

Montreal, Quebec May 10th, 2010, Normont Hinge, a division of Normont Industrial, launches its newly updated hinge catalogue which now includes Concealed, Latch and Quick Release Hinges as well as the Special Scissor Hinge.

The Normont Hinge Catalogue has been developed with the Customer in mind. The Nomenclature section explains the various standards available in the industry as well with the Customize Your Connection System Form, Custom Continuous Hinge Form and Build Your Own Hinge Form, the customer is able to get the Engineering support for their Special Application. These forms can be downloaded from the Normont Hinge website www.normonthinge.com.

The Normont Hinge Catalogue begins with an overview of Normont's capabilities from the conception stage to the finished product. This section enables the customer to understand that Normont's Engineering Department is ready to work with the customer on any project, new or old from start to finish. Normont wants the customer to be unique, and innovative regarding their Connection Solutions!

To download our catalogue, go to http://www.normonthinge.com/pdf/Normont_Hinge_Catalogue_en.pdf. For more information on Normont Hinge products, please visit the web site at www.normonthinge.com or call toll free at 1-800-840-2272.

About Normont Industrial

Normont Industrial is recognized as a leader in the design, manufacturing and supply of industrial and access hardware. Our World Class team of Professional Engineers will analyze the specific requirements of each new request whether it be for hinges, gas springs, battery trays or engine cradles and develop an innovative quality and cost effective solution for that application. Normont's capabilities include Powder Coating, Stamping, Machining, Fabricating, Welding and Assembly. The Normont team is ready to deliver custom engineered solutions that are innovative, high in quality and cost effective.
